on behalf of

Leeds Metropolitan University, UK

MSc Contemporary Accounting

for Professional Accountants only

The MSc Contemporary Accounting enables qualified and experienced professional Accountants to gain recognition for their achievements and undertake a FAST TRACK route to a Masters award. The award enables delegates to gain a full Masters qualification in one year part-time study.

This is the only MSc programme that recognises your professional accountancy qualification and provides insight into contemporary accounting and financial issues facing professional accountants in a competitive global market.

The award is intended for those in positions of influence or for those soon to embark upon that demanding role and is designed to challenge your thinking and take you beyond the conventional notions of finance and accounting practice. The programme enables you to update your professional knowledge and critically evaluate and apply contemporary issues in finance and accounting directly to your business practice.

Specially designed for busy executives, the programme critically explores contemporary financial practices and critical decision making processes for those who aspire to strategically lead their organisation in a global market.
